

Remember Your Divinity, Divino BetSatori

(Lyrics by Bruno Treves)

Track #1 - Show Your Love

I've been searching for a long-long time, for a rhythm to share with you
I've been waiting for a long-long time, for these words to say the truth
I can't hold it any longer now, there is something I must do
Find my courage open up right now, as I share this song with you

Let our voices merge into one sound, let all worries wash away
Hold your hands together, find your smile, sing your heart out and hear you say

Because there is nothing to fear
Because there is nowhere to go
Because there is nothing to do
Just show your love

OooooOoom Shooooow Your Love

After all these years being lost, I have found my way back home
Tried to hide and run away from me, but I never was alone
Been all over and around the world, can't remember where I'm from
But tonight I am singing here with you, and my problems are all gone

Let our voices merge into one sound, let all worries wash away
Hold your hands together, find your smile, sing your heart out and hear you say

Because there is nothing to fear
Because there is nowhere to go
Because there is nothing to do
Just show your love

Because there is nothing to fear
Because there is nowhere to go
Because there is nothing to do
Just show your love

OooooOoom Shooooow Your Love

Track #2 - Feeling Awesome

Feeling awesome, and we just began
 Feeling awesome, beginning to end
 Feeling awesome, astonishing peace
 Feeling awesome, discovering bliss

And if you're feeling down, your head below the ground
 Just take a look around, surrender to the sound
 Don't go astray today, don't leave yourself afraid
 There's gotta be a better way, a place to lay, to take your pain away

Get ready to receive, this merry way to live
 Determined to succeed, you just need to believe, (that we're)

Feeling awesome, and we just began
 Feeling awesome, beginning to end
 Feeling awesome, astonishing peace
 Feeling awesome, discovering bliss

Takes courage to encourage, pay some homage, we're gonna take the moonlight to the sun
 Make love, you know you wanna, drink that mana, and shake that what your mama gave ya
 Aspire to inspire, build empires but keep them always open to the fam
 And don't forget to thank the lord, friend por favor, remember we serve love

Get ready to receive, this merry way to live (merry Krishnas!)
 Determined to succeed, you just need to believe, (cause we're)

Feeling awesome, and we just began
 Feeling awesome, beginning to end
 Feeling awesome, astonishing peace
 Feeling awesome, discovering me

Track #3 - Better than Fear

Like a voice in the forest, I was sound in the trees
Light of sun in a candle, contemplation on peace
When I heard through the redwoods, shiny glimpses of truth
It was the wind that whispered, as I whisper to you

Stop, and you will perceive, all that there is to be, is already here
Stop, you gotta believe, that you already know, love is better than fear

I was dropped in the ocean, in a splash of a flash
Fast awakenment in waveform, turned to flesh in the now
There I felt on the surface, something beating inside
And I dove to the center, floating into my heart, (and it said)

Stop, and you will perceive, all that there is to be, is already here
Stop, you gotta believe, that you already know, love is better than fear

Got high up on the mountain, from that place I can see
Frozen rivers from melting, water vapor to be
Was surrounded by angels, looking over the clouds
When I heard them from heaven, chanting on to the crowds, (they all sang)

Stop, and you will perceive, all that there is to be, is already here
Stop, you gotta believe, that you already know, love is better than fear

Track #4 - Human Hanuman

Sitting, in meditation, watching all them thoughts go: bye-bye
 I'm, sitting, in meditation, watching all them thoughts go: bye-bye, (bye-bye)

I'm sitting in meditation, getting ready for today
 Lip syncing these good vibrations, magic powers in display.
 Love serving, no reservations, across all nations hear me say:
 You are one with the force, creation, manifestations every day, I'm

Sitting, in meditation, watching all them thoughts go: bye-bye, (bye-bye)
 I'm, sitting, in meditation, watching all them thoughts go: bye-bye-bye, I am

I am that I am, I'm Budha Shiva's Shakti, I'm Alla Adonia, I am
 I am that I am, I'm Budha Shiva's Shakti, I'm Alla Adonia, I'm

Sitting in meditation, deep down visualizations, downloads and realizations, dawning
 transformation
 Recurring revelations, returning us salvation, musical medication, major harmonization
 Mature examination, connecting generations, united separation, masterful gestation
 Devotional perfection, evolving destination, complete in right perception: See God in your
 reflection, while

Sitting, in meditation, watching all them thoughts go: bye-bye, (bye-bye)
 Sitting, in meditation, watching all them thoughts go: bye-bye-bye, I am

I am Hare and,
 Shri Krishna's gay rays
 I'm here to stay, yes!
 I'm Budha, Shiva's Shakti, I'm Alla Adonai, I am

I am Yahweh's way, (I pray thy name)
 I'm Jah, Amen Zen, (the road to Zion)
 Make love, amazing
 I'm Budha, Shiva's Shakti, I'm Alla-Adonai, I am

A Human Hanuman, (my guru's truth)
Humble promised land, (raw naked loving)
Eve and her Adam
I'm Budha, Shiva's Shakti, I'm Alla Adonai, I am

A Human Hanuman, (my guru's truth)
Humble promised land, (raw naked loving)
Eve and her Adam
I'm Budha, Shiva's Shakti, I'm Alla Adonai. I am

I'm Budha, Shiva's Shakti...

You are God, divine inside, no separation
You are God, divine outside, no separation
We are God, divine inside, no separation
We are God, divine outside, no separation

Track #6 - Love is True

Feeling lost and all alone, stressed and anxious no free will, no self-control
 Monkey mind keeps running wild, separation, wrong perception, toxic strife

Take a breath and let it go, don't let it drain you
 It's a new show on this venue we call life
 Light the spark that lives inside, and make it brighter
 Taste the truth that makes us wiser on the path

Scary thoughts are getting loud, selfish forces, egocentric, bless them out
 Empty dreams into the void, even those who reach the Goddess get destroyed

Take a breath and let it go, don't let it drain you
 It's a new show on this venue we call life
 Light the spark that lives inside, and make it brighter
 Taste the truth that makes us wiser on the path

Pura pasión
 Devoción de su corazón
 Conectando, conecciones, impecable unión
 La división es una ilusión

I know, with you, that love, is true
 I know, with you, that love, is true

Contemplando, mi pasado, futuro presente, vivo enamorado
 Programando, procreando, protegiendo el sueño, ciclos circulando

I know, with you, that love, is true
 I know, with you, that love, is true

Track #7 - Always Free

Finding love in every corner, every curve will draw me in
With the closing of this chapter, something new we shall begin

Watch me gazing as I see you, come and take this breath with me
If you let me hold you closer, you will know you are always free

Fly away into the sunset, or stay in bed with me
Keep on searching for that pleasure, and you'll know you're always free

Fly away into the sunrise, or stay in bed with me
Keep on searching for that pleasure, and you'll know you're always free

Always free, all ways, free
Always free, all ways, free

Taking time to find our tempo, at this pace we move with ease
Graceful thoughts beyond temptations, first we grasp and then release

Piece by piece we come together, like a puzzle, made to split
Don't forget, we must remember, find your way and chase your bliss

Dive again into the ocean, or stay in bed with me
Keep on searching for that pleasure, and you'll know you're always free

Dive again into the devotion, and stay in bed with me
Keep on searching for that pleasure, and you'll know you're always free

Always free, all ways, free
Always free, all ways, free

Track #8 - You are Coming

No pain, no life, the stairs to heaven reach inside your heart
 Ignite, your light, go live and prosper conquer what is right
 Let go, the fight, is Lila playing, rolling day and night
 They say, too much, better to melt fingers reaching your touch

You're coming, you're coming, you're on your way, I love you, keep on coming
 You're coming, you're coming, you're on your way, I love you, bring it on

Ooooh, God, (she said), I think I am coming
 Don't, stop, (it's fate), feels like I am flying

Go, see, look in every mirror it's me
 Come, leave, don't worry, it's all meant to be

You take, your time, I trust your timing, and you're trusting mine
 It's fine, to wait, I wasn't ready and ain't ready yet
 But if, you come, it'll be divine, it'll be your time to shine
 And when, I'm gone, you won't be sorry, you'll keep going strong

You're coming, you're coming, you're on your way, I love you, keep on coming
 You're coming, you're coming, you're on your way, I love you, bring it on

Rare, pair, fair, you got me praying
 You're, pure, love, without me saying

You'll be, whatever you want it to be
 You're free, keep rooting me down like a tree

Today we say goodbye, nice to meet you

We're singing this song loud, together we stand proud
 No one can hear me, feel me, I am all of you deep inside

You shake, align, awake our state to shape the great design
 Romance, awaits, we'll soon be covered on your warm embrace
 Survey, I am gone, my soul escapes the space we are calling home
 No place, where from, eternal numbness brings it all to come

You're coming, you're coming, you're on your way, I love you, keep on coming
You're coming, you're coming, you're on your way, I love you, bring it on

We're singing this song loud, together we stand proud
No one can hear me, feel me, I am all of you deep inside

We're singing this song loud, together we stand proud
No one can hear me, feel me, I am all of you
